

PLENGoer to showcase PLEN2 in China at CES Asia 2016

May 9 2016

PLENGoer Robotics Inc.

We, PLENGoer Robotics Inc., will showcase, “PLEN2” , the printable open-source humanoid, for the first time in China at CES Asia 2016 held at Shanghai New International Expo Centre (SNIEC) between 11 and 13 May 2016.

PLEN2 introduce people to the advanced technology world and the excitement of building and programming robots. PLEN2 is the result of two years of product development by PLEN Project Inc. Since it is open-source, PLEN2 can be a platform for educators interested in bringing the engagement of robotics into STEM-related curriculum in school classrooms. Our booth is in the North 1 building, #1132.

As a sales agent in China, we also have an assembling and programming workshop, and are planning to demonstrate remote controlling of PLEN2 between Shanghai and Tokyo with Japanese technology startup, “Realglobe Inc.” . We’ re looking forward to meeting many of you at the show this week!

About PLENGoer Robotics Inc.

Founded in 2016, PLENGoer Robotics Inc. . develops personal service robots to achieve a realization of technology for a more affluent human life”. With the robot development technology PLEN Project Company has cultivated thus far, together with production technology GoerTek group provides, we aim to develop unprecedented and really functional service robots by the end of 2016. PLENGoer Robotics will be an innovation platform for service robots.
